AKAROA II

ULTRA-LOW EMISSION (ULEB) WOOD FIRE RANGE

The Masport Akaroa II wood fire combines conventional design with soothing warmth. Built with improved design, aesthetic appeal and for all regions in New Zealand, the upgrades were inspired by customer demand for a cleaner environment. The Akaroa is ideal for medium-sized homes offering powerful, clean-burning performance to keep you warm and cosy throughout winter.

AKAROA II ULTRA-LOW EMISSION (ULEB) WOOD FIRE RANGE

The Akaroa II wood fire's sleek tall frame allows for easier loading of wood, the small footprint and contemporary design makes this model suitable for a wide range of architectural styles and compliments rooms with high ceilings. The Akaroa II comes in two base options - a built-in, concealed ash pan or a wood stacker for convenient storage solutions.

- ▶ Ultra-clean burning that is better for air quality
- ▶ Large portrait window with an expansive flame view
- ▶ Small footprint ideal for small spaces
- ▶ Ceramic Fire Bricks for greater heat retention and durability
- ▶ Stainless Steel Boxed Baffle for superior performance and longevity
- ▶ Lower long-term running costs due to quality components
- ▶ Start-Up Latch mechanism for ease of operation and safety
- ▶ Does not require electricity
- ▶ A future proof solution for all NZ regions - clean air zones and rural installations

Corner - 998904

* Refer to the specification sheet for full details of the clearance distances and heat capacity and output.

**Space Heat Output is only a guide based on homes with average insulation, window area, and 2.4m ceiling heights. Differences in these factors, as well as others like, geographical location, layout of the house, living room size, type of windows all play a part in choosing the right model for your heating needs. Consult your dealer or installation contractor for more information.
