

720 FIRE PIT

Designed for larger spaces and bigger entertaining.

When you need more heat, more cooking surface, and more room to gather, the Metro 720 Fire Pit steps up. With its 720mm diameter, this fire pit is built for serious fires and seriously good times. Whether you're hosting outdoor feasts or just stretching the evening out by the flames, the 720 gives you the scale and performance to make it happen. Built from heavy-duty Corten steel and designed with a double burning action that produces less smoke and more heat.

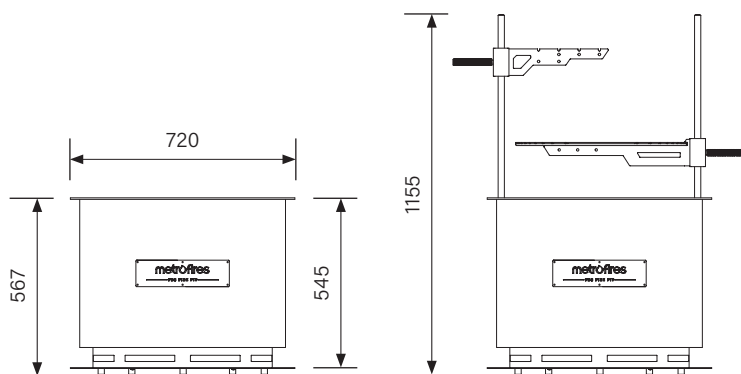

Fire Pits include a cooking kit, ember rake and stainless steel lid.

*Stainless steel deck protector shown below is available as an optional extra.

THE ULTIMATE IN LIVE FIRE COOKING

Take your Metro Fire Pit to the next level
