

Rad One

The new Metro Rad One features the innovative black glass-ceramic ROBAX® NightView from SCHOTT. Contrasting nicely against the metallic black paint finish, the upright vertical design with minimalist detailing, brings a clean and refined aesthetic with a magnificent flame view. The perfect solution for tiny homes and smaller dwellings.

Due to its small firebox size and footprint, the Rad One is installed with the ECO 130 Flue Kit (130mm diameter flue) and the Pioneer 900 double flue shield.

	Clean air approved model
Heat output	8.5kW peak heat output
Heating area	Heat up to 80m ² / 1-2 bedroom home
Finish	Metallic black high temperature paint
Wetback	N/A

Specifications were correct at the time of printing but may alter and those detailed should be used only as a guide. If in doubt, please consult your local Metro Fires stockist. Peak heat outputs (kW) are based on the NZHHA test method using dry pine with testing undertaken by independent International Accredited New Zealand (IANZ) testing facilities.
