

Mega Rad

The largest clean air approved Metro radiant, and the biggest fire in the Metro family. The Mega Rad features a huge firebox with a solid 10mm steel cook top to match.

The Mega Rad firebox handles hefty firewood with ease and is capable of providing up to 21kW of peak heat to keep the largest of homes warm and comfortable all winter long. Enjoy watching the flames through the 600mm wide landscape door glass thanks to Metro's clever airwash technology.

	Clean air approved model
Heat output	21kW peak heat output
Heating area	Heat up to 250m ² / 4-5 bedroom home
Finish	Metallic black high temperature paint
Wetback	Optional 3kW wetback
MfE#	156727 (DRY) / 156728 (WET)
Emission	0.66gms (DRY) / 0.67gms (WET)
Efficiency	66% (DRY) / 66% (WET)
SKU	200-1730

Specifications were correct at the time of printing but may alter and those detailed should be used only as a guide. If in doubt, please consult your local Metro Fires stockist. Peak heat outputs (kW) are based on the NZHHA test method using dry pine with testing undertaken by independent International Accredited New Zealand (IANZ) testing facilities.
