

Xtreme Rad - Woody

The Xtreme Rad Woody features a clean burning firebox design that delivers a peak heat output of 18kW to warm your home while also providing convenient wood storage. The generous door glass provides the perfect flame view to enjoy on those cold winter nights.

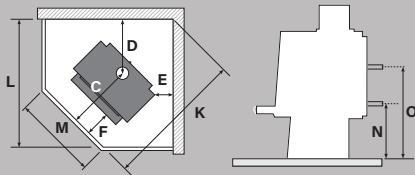

The Xtreme Rad firebox easily handles large pieces of firewood, and boasts a large cooktop for the convenience of cooking the evening meal. Impressive radiant performance and features combine to fight off the extremes of winter.

Specifications were correct at the time of printing but may alter and those detailed should be used only as a guide. If in doubt, please consult your local Metro Fires stockist. Peak heat outputs (kW) are based on the NZHHA test method using dry pine with testing undertaken by independent International Accredited New Zealand (IANZ) testing facilities.
