ASSEMBLY INSTRUCTIONS

SKU 69127-69128-69129-69130

SKU 69132-69133-69134-69135

Please read through the fllowing instuctions before begining assembly

Check the parts list and lay out on a soft surface before assembling. Check for any damage.

Read manual fully before assembling. Keep instructions safe for future reference.

Not intended for commercial use.

WARNING

1.Installation should be carried out on a flat surface of at least 5 meters * 5 meters, and soft protective pads should be placed on the parts that come into contact with the ground to prevent scratches on the product surface!
2.After unpacking, check the quantity of components according to the parts list;
3.The compressive strength is 40kg per square meter. In extreme weather conditions such as snow or ice, if the weight exceeds this value, the shutter must be opened in advance; .
4.After the shutter is closed, do not use excessive force to rotate the handle to avoid damage to the internal mechanism!
